SUMMARY

Entry-level AI / ML & Generative AI Engineer | Software Engineer (Fresher) with a Bachelor's degree in Artificial Intelligence and Data Science. Hands-on experience through internships in Machine Learning, Data Science, ChatGPT, and Generative AI, including prompt engineering and LLM-based applications. Strong foundation in Java, Python, Data Structures, and OOP concepts. Passionate about continuous learning, problem-solving, and contributing to modern, scalable software and AI systems.

TECHNICAL SKILLS

Programming Languages: Java, Python, C, SQL
Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS
AI / ML & GenAI Skills: Machine Learning Basics, Supervised & Unsupervised Learning, ChatGPT, Generative AI, Prompt Engineering, Large Language Models (LLMs), Responsible AI, AI Ethics
Data & ML Libraries: Pandas, NumPy, Scikit-learn (Basic)
Web Technologies: HTML, CSS
Version Control: Git, GitHub
Databases: MySQL (Basic)
Tools & IDEs: Eclipse, Visual Studio Code, Jupyter Notebook
Other Tools: MS Office, Canva, Photoshop

EXPERIENCE

- Java Software Developer Intern – HENOTIC, Hyderabad** June 2023 – Aug 2023
 - Developed and optimized Java-based application modules using OOP principles and Data Structures.
 - Improved application performance by 75% by optimizing data handling logic.
 - Utilized Eclipse IDE for debugging, code optimization, and feature implementation.
 - Collaborated with team members to analyze requirements and deliver functional components.
- AI-ML-DS Engineer Intern – IIIT Hyderabad (Industry Partner: Blackbuck)** May 2024 – July 2024
 - Built and deployed machine learning models using Python for structured datasets.
 - Performed data cleaning, exploratory data analysis (EDA), and feature engineering.
 - Developed predictive models and evaluated performance using appropriate metrics.
 - Communicated insights effectively through reports and visualizations.
- ChatGPT & Generative AI Intern – Blackbuck Engineers Pvt. Ltd. (APSCHE)** Dec 2024 – Mar 2025
 - Successfully completed a 240-hour long-term internship focused on ChatGPT and Generative AI.
 - Applied prompt engineering techniques to generate accurate, context-aware AI responses.
 - Explored real-world applications of Large Language Models (LLMs) in automation, content generation, and data analysis.
 - Gained understanding of ethical considerations, limitations, and responsible use of Generative AI.
 - Internship conducted in association with the Andhra Pradesh State Council of Higher Education (APSCHE).

EDUCATION

- B.tech in Artificial Intelligence and Data Science** Nov 2021 – May 2025

Sagi Rama Krishnam Raju Engineering College(A)

 - GPA: 6.8/10.0
- Board of Intermediate** June 2019 – May 2021

Aditya Junior college

 - 87.3
- Board of Secondary Education** June 2018 – Mar 2019

Adhitya English Medium High School

 - GPA: 9.8/10

INTERNSHIP PROJECTS

- **Community Services Project(Mini Project)**

Involves in community development and service activities

- **Titanic Survival Prediction**

Developed a machine learning classification model to predict passenger survival.

Used Python, Pandas, NumPy, and Scikit-learn for data preprocessing and model building.

Achieved improved accuracy through feature selection and model tuning.

- **Java Mini Project – Student Management System**

Designed and implemented a console-based Java application using OOP concepts.

Implemented CRUD operations and efficient data handling.

Focused on clean code structure and modular design.

CERTIFICATIONS & TRAINING

- DSA using Java Internship - HENOTIC
- AI,ML&DS Internship - IIDT with its company partner BlackBucks
- ChatGPT & Gen AI Internship - IIDT with its company partner BlackBucks

SOFT SKILLS

- Time Management.
- Teamwork.
- Communication.
- Adaptability.
- Problem Solving.
